- |                          |                        |                                  |
|--------------------------|------------------------|----------------------------------|
| ▶ Software Testing       | ▶ Software Development | ▶ Effective Communication Skills |
| ▶ Source Control         | ▶ Accuracy             | ▶ Team Player                    |
| ▶ Detail Oriented        | ▶ Adaptability         | ▶ Scripting                      |
| ▶ Problem-Solving Skills | ▶ Logical Thinking     | ▶ Multitasking                   |

## TECHNICAL SKILLS

- |                               |  |
|-------------------------------|--|
| <b>Languages</b>              | ▶ Java   C   SQL                         |
| <b>Automation/ Test Tools</b> | ▶ Selenium WebDriver   TestNG   Cucumber |
| <b>Product Management</b>     | ▶ Agile   Jira   Rally                   |
| <b>Database</b>               | ▶ Oracle SQL Developer                   |
| <b>IDE</b>                    | ▶ IntelliJ IDEA   Android Studio         |
| <b>Tools</b>                  | ▶ Git   Bitbucket   SVN                  |

## OCCUPATIONAL CONTOUR

**FIDELITY NATIONAL INFORMATION SERVICES INC (FIS), Bengaluru**

**Aug 2021 – Feb 2023**

*Software Test Analyst E*

**Project Title: OPF NACHA (USA ACH) Product Development**

### Project Description:

Worked as a QA in Open Payment Framework (OPF) NACHA product development which is planned to go live across 200+ banks in the USA.

### Key Responsibilities:

- ✓ Developing and maintaining automated test scripts using Selenium
- ✓ Collaborating with cross-functional teams, including developers, business analysts, and project managers, to understand project requirements and define test objectives.
- ✓ Identifying, documenting, and reporting software defects and inconsistencies through the use of bug tracking systems (e.g., JIRA), and working closely with the development team to ensure timely resolution.
- ✓ Conducting root cause analysis of software issues and working proactively to prevent future defects through continuous improvement initiatives.
- ✓ Participating in the Agile/Scrum development process, attending daily stand-ups, sprint planning, and retrospective meetings to provide testing insights and ensure timely delivery of high-quality software.
- ✓ Involved in maintaining an automated regression suite holding around 4000 test cases

- ☑ Increased test coverage by 25% through the implementation of automated testing.
- ☑ Monitoring the test execution in CI
- ☑ Conducting Regression testing as and when new builds were released

**Project Title: Silicon Valley Bank**

**Key Responsibilities:**

- ☑ Responsible for creating automated test scripts for the different features
- ☑ Developed and maintained green cucumber reports for every release
- ☑ Worked with SWIFT MT Payment format

**F22 Labs, Chennai**

**Jul 2023 – Present**

*Quality Analyst*

**Project Title: Frank Darling E Commerce Website**

**Project Description:**

Frank Darling is a Jewelry E Commerce website.

**Key Responsibilities:**

- ☑ Created a 50 Test Case Automated Regression test suite using Selenium with Java, TestNG and Maven from scratch.
